

PROJECT PROFILE

Los Vientos 1A and 1B

LOCATION

Texas

START DATE

December 2011

END DATE

July 2013

SCOPE

- Turbine erection
- Foundations
- Collection system
- SCADA
- Substation system
- Transmission lines
- O&M building

OVERVIEW

Los Vientos 1A consists of 87 Siemens 2.3 MW wind turbines and Los Vientos 1B consists of 84 MHI 2.4 MW wind turbines. The electricity produced will be purchased by CPS Energy under a 25-year fixed price Power Purchase Agreement. Located in Willacy and Cameron Counties, Texas, both projects will provide enough electricity for more than 100,000 households.
